## **CSI Factoring Announces New Factoring Clients**

*Denver-based factoring company provides small businesses an alternative to traditional bank financing*

**DENVER, Colorado, June 1, 2011** – CSI Factoring is rapidly expanding by developing new relationships and providing alternative financing to unfulfilled and discouraged small business owners. “With many banks reluctant or unable to lend to small businesses, factoring remains an important form of liquidity,” said CSI Factoring CEO, [Christopher A. Smith](#).

In the past, factoring was primarily focused on the textile, apparel and furniture industries whereas today factoring can be utilized by any company generating a commercial invoice. CSI Factoring will provide financing to companies across most industries including manufactures, distributors and service providers. The following are some of CSI Factoring’s most recent transactions:

- A \$50,000 Factoring Facility to a small service provider who other financiers would not entertain,
- A \$250,000 Facility to a Staffing company , and
- A \$500,000 Facility to a Fire Protection provider who doubled his revenues by entering a new market and could not obtain an increase in his existing bank line

The facilities provided will allow our clients to strengthen their cash flow and assist them in successfully competing in this challenging economic environment.

### **The Business Case for Factoring**

Managing cash flow is a challenge for any business and companies often wait 30-60 days to receive cash from their accounts receivable. When a business is facing unanticipated expenses and receivables are delayed, an immediate cash infusion becomes critical. [Invoice factoring](#) is a way for companies to secure funds without taking on additional debt.

## **Learn More and Apply Online**

CSI Factoring's website offers detailed information about invoice factoring and an online application for pre-qualification. Invoice factoring is a more expeditious way for companies to obtain working capital or to fuel growth. [Factoring applications](#) are typically reviewed and approved in one business day. There are no long-term contracts or hidden fees associated with the service. Businesses interested in learning more about CSI Factoring can visit [www.csifactoring.com](http://www.csifactoring.com).
